BSC IN COMPUTER SCIENCE

CORE SKILLS

- Cybersecurity Fundamentals
- Network Security
- SIEM & Log Analysis
- Vulnerability Assessment
- Penetration Testing
- Linux & Windows Administration
- Nmap & Wireshark
- Wazuh
- VirtualBox & Virtualization
- Risk Management

EDUCATION

Unity University

BSC Computer Science
2021 - 2026

SUMMARY

Recent Computer Science graduate with hands-on training in cybersecurity, network security, SIEM, vulnerability assessment, and penetration testing. Familiar with Linux, Windows, Wazuh, Nmap, Wireshark, and VirtualBox. Motivated to build practical cybersecurity skills and contribute to a professional security team.

EXPERIENCE

Cybersecurity Trainee 2026 – Present
Qiyas – Addis Ababa University

- Gained hands-on experience in cybersecurity through practical labs and projects covering SIEM, vulnerability assessment, network security, and penetration testing.
- Worked with Wazuh, Nmap, Wireshark, Linux, and VirtualBox in practical cybersecurity environments.
- Developed and documented cybersecurity projects in my GitHub Portfolio:
